# Smart Package for

# Rational Asset Analyzer (RAA)

## An Application Understanding Tool

Provides insight into an application's structure for both the experienced and new developer. Understanding existing application relationships means changes can be made with fewer mistakes and with more focused yet still comprehensive testing, helping complete projects on time and within budget.

Royal Cyber will ensure your success with RAA through our excellent services including set up, configuration, and mentoring.

**Software:**

Rational Asset Analyzer provides insight into relationships within & among mainframe and composite applications providing better understanding of the impact & risks of change.

• Enables you to identify both the mainframe and the distributed artifacts effected by a proposed code change to a cross platform application so that you can make changes more quickly, with less risk

• Helps reduce the complexity of software projects by delivering up-to-date knowledge of application components from the code itself to scope the elements included in the change

• Improves process and team efficiency by making the same application insight available to all team members via a web browser interface

• Helps shorten the learning curve for new and even experienced developers by documenting the exist application inventory and their relationships

• Enabling developers to understand heterogeneous artifacts in projects, or across the whole enterprise within the context of their development environment via an eclipse plug-in

**Why Use Rational Asset Analyzer**

1. Faster time to market
2. Maximize use of maintenance ( save dollars )
3. Code Quality
4. Application understanding
5. Ability to respond to change request
6. High Application Stability
7. Lower Defect Rate
8. Lower Risk to organization
9. Less Hours Required to Support Application

# SERVICES:

**①**

## Week 1

Requirement gathering & Analysis

Installation of RAA

OOTB feature configuration

**②**

## Week 2 & 3

Customized Configuration as per Client Environment

Complete Integration with existing Environment

Testing, Performance Tuning & Optimization

**③**

## Week 4

Training & Mentoring

Documentation

# Package Includes:

4 RAA License (IBM Rational Asset Analyzer Authorized User Single Install License + SW Subscription & Support 12 Months (D04M3LL)) with 4 Weeks of Services
