Rational Team Concert for
# System Z

An Agile application lifecycle management (ALM) solution for Mainframe Users

1 Initiate Change Request
- Submit new work item to represent a change request
- Assign to Analyst

Project Lead/ Manager

Analyst/SME

2 Analyze
- Analyze Application to be changed
- Size/Scope the effort for the change
- Create Bill of Materials

5 Track Project Status with Rational Team Concert Dashboard

4 Promote and deploy
- Create 'official' build of application
- Promote through test environments
- Build formal release package
- Deploy package to production

Release Engineer

Application Developer

3 Implement required changes, build and deliver
- Analyze source repository to identify modifications
- Implement and test modifications
- Perform personal build and deliver new features

Helps companies build better software and products with an all-in-one Agile development environment for teams, which includes agile, formal and hybrid planning and reporting, all on a common platform.

Royal Cyber will ensure your success with RTCz through our 2 weeks of excellent services plan including set up, configuration, and mentoring.

Assets involved

• IBM RATIONAL DEVELOPER FOR SYSTEM Z UNIT TEST DESKTOP USER AUTHORIZED USER SINGLE SESSION LICENSE + SW SUBSCRIPTION & SUPPORT 12 MONTHS
• IBM Rational Team Concert Developer for IBM Enterprise Platforms Authorized User Single Install Initial Fixed Term License + SW Subscription & Support 12 Months

Software
Rational Team Concert for System Z

• **Agile your way** – Scrum, waterfall or hybrid; adapt planning to meet your team needs and rhythm.
• **Friction free communication** by smart linking of tasks, code changes, builds and releases as you work
• **Live dashboards** - write code not status reports – live web based dashboards tell everyone the story
• **Empower developers** - Fix goofs, juggles tasks, patch in seconds, easily add or remove features
• **Runs anywhere** – open platform - Works with your existing tools and data for incremental adoption

Implementation Plan
Duration
2 Weeks

• RDzUT --> z/OS -->Laptop(linux)
• RTC (JTS,CCM,Tomcat,Derby) --> z/OS
• Configuration with environment
• Defining Agile workflow and project hierarchies
• Training & Mentoring Services

Jump Start PILOT
Package
